

ABSTRACT SUBMISSION GUIDELINES

1. General Information

Submission Deadline

- Submission is only available online at <https://submission.summitmd.com/login.php?iid=55>.
- Submission closes on **Friday, November 7, 2025, 11:59:59 PM KST(UTC +9)**. Please complete the submission before the deadline.

ID/Password for Submission

- To submit a abstract, you must join www.summitmd.com first. If you haven't signed up yet, please join summitMD before the submission.
- You are advised **NOT** to use a **Hotmail account** for your ID, as it blocks emails from us. If you use a Hotmail account, you may not be able to receive important notifications, including acceptance letters, invitations, and further information about the presentation.
- If you forgot your user ID (email address) or Password, click "Forgot Your Password?" to reset the password.

2. Title

- The title of the abstract should be within 300 characters.
- It should be concise and specific, containing no abbreviations and indicating the nature of the investigation.

• **Please capitalize your title in proper APA style before the submission.**

Convert your title [here](#) to APA style and manually revise afterward.

ex) **A Challenging Case Report: Instant Coronary Intervention in a Female Before Kidney Transplant**

3. Author(s)

- The designation of a single presenter is required to complete a submission.
- First author, presenter and co-author(s) can be the same person.
- **Country and Affiliation of abstract:** The country and affiliated institution of the abstract must be based on the first author's nationality or institutional affiliation. Even if the presenter is different from the first author, the abstract details (country and affiliation) must still reflect the first author's information.
- Each author's information must be provided for submission. **Be sure to proofread carefully**, as the authors' information will be included in a JACC online supplement and on the official website.
- **Once you submit your abstract, a confirmation email will be sent to you (submitter). If your abstract is accepted, the designated presenter will receive further notification emails for the presentation, and the submitter will receive emails for the JACC issue. Make sure all the contact information is correct.**

4. Categories

- Abstracts should involve the following disciplines in cardiovascular medicine and intervention.
- Select one category that is closest to the subject of your abstract.
- If the category does not match the subject of the abstract, you may receive a low score from the reviewers.

CORONARY

ACS/AMI

Complex PCI

- Calcified Lesion
- Long Lesion
- Tandem Lesion
- CTO
- Multi-Vessel Disease
- Small Vessel Disease
- Left main
- Bifurcation
- In-Stent Restenosis

Imaging & Physiology

- FFR
- Invasive Imaging (IVUS, OCT, NIRS, VH, etc.)
- Non-Invasive Imaging (CTA, MRI, Echo, etc.)
- Angiography/QCA

High-Risk Intervention (Diabetes, Heart Failure, Renal Failure, Shock, etc.)

Vascular Access and Closure

Adjunctive Procedures (Thrombectomy, Atherectomy, Special Balloons)

Complication Management

DES/BRS/DCB
Hemodynamic Support
Pharmacotherapy
Surgical Therapy
Clinical Trials & Science

STRUCTURAL

Aorta Disease and Intervention

- *Bicuspid AV*
- *Minimalist TAVR*
- *Valve in Valve TAVR*
- *Antithrombotics*
- *Coronary Artery Protection / Access*
- *Complex TAVR*
- *Non-femoral TAVR*

Mitral Valve Intervention

- *TEER*
- *Transcatheter MV Repair*
- *Transcatheter MV Replacement*

Tricuspid Valve Intervention

Imaging

- *Computed Tomography*
- *Echocardiography*

Pulmonic Valve Intervention

LAAO

Surgical Therapy

Other Structural Interventions

ENDOVASCULAR

Iliac / SFA Intervention

Stroke and Neurovascular Interventions

Thoracic & Abdominal Aortic Interventions

Venous Disease Intervention

Carotid Intervention

Other Endovascular Intervention

Thrombus Removal Devices and Techniques

Surgical Therapy

HEART FAILURE

Vascular Heart Disease and Cardiomyopathies

Cardiogenic Shock

Mechanical Circulatory Support

Pharmacotherapy

Surgical Therapy

INNOVATION

Digital Health and Artificial intelligence

Technology Trends in Coronary Intervention

Technology Trends in Valve Intervention

Pharmacotherapy

Surgical Therapy

5. Contents

Basic info / Requirements

- Abstracts must be submitted in English.
- Abstracts consist of 4 sections: Background, Methods, Results, and Conclusions.
Each section is required to contain min 150 char / Max 2200 char (approx. 300-350 words).
- [Optional] In preparation for your possible publication in the JACC online supplement, please upload up to three images in each section.
- [Optional] To increase your chance of acceptance, you can upload videos separately, but they will **only be accessible during review and won't be published.**

Check Before You Submit

- You can copy and paste an existing Excel table or create a new table using the provided system tools; however, be sure to check again whether the special characters or symbols are not broken.
- Spaces are included.
- Use zeros before decimal points: 0.05, not .05
- Use decimal points, not commas: 0.05, not 0,05
- Use lowercase "p" values ($p < 0.05$).
- Provide a manufacturer name and location in parentheses for all brand or trade names.
- Never use the underline feature to denote the following symbols: \pm , \leq , \geq .
- Use space between numbers and symbols. (e.g., 3 ± 4 , not 3 ± 4 ; 3 mg, not 3mg).
- All measurements must include a unit of measure (e.g., systolic blood pressure "140 mmHg", not just "140").
- For brand drugs, include generic names in parentheses.
- Do not include references, credits, or grant support.
- The content of the submitted abstract is entirely the responsibility of the author. Authors are also responsible for reviewing and revising their abstracts by the designated correction deadline before publication in JACC.
- The affiliation and nationality of the first author must be accurately provided at the time of submission. Regardless of who submits the abstract, the country's information must correspond to the first author's nationality.
- Duplicate submissions are strictly prohibited. **Abstracts with identical or substantially similar content submitted under different author names will be excluded from review.**

6. Review

- All submitted abstracts will be thoroughly evaluated by official reviewers, and the result will influence the allocation to two different types of sessions – *Best Clinical Trials Session* and *Moderated Abstract Competition Session*.

7. Acceptance Notification

- The presenters of the accepted abstracts will be notified at the end of January 2026.
- After the notification, presenters will be informed of their presentation date and time with specific guidelines for the session.

8. Presentation

- Accepted abstracts will be allocated to a 1) *Best Clinical Trials Session* or 2) *Moderated Oral Abstract Competition* or 3) *E-Poster Presentation (Online Only for those who are not available to attend, not real-time presentation)* based on the scores assigned by official reviewers.
- **All accepted abstracts will be published in the online supplement of the Journal of the American College of Cardiology (JACC).**

✂ **For every type of presentation, a presenter is required to submit a presentation slide.**

Session Type

1) Best Clinical Trials Session

- Abstracts containing novel findings that may improve current practices will be presented at this session.
- Studies that have been published before will be excluded.
- All the presenters in the Best Clinical Trials session will get a cash prize.
- Best Clinical Trials will be featured in *TCTAP's Daily News* and published in an online supplement of 'The Journal of the American College of Cardiology (JACC)'.

2) Moderated Abstract Competition

- This competition session will be led by prestigious moderators and panelists.
- The best presenter who gets the highest score from the moderators and panelists will get a cash prize and a Certificate at the conference.

3) E-Poster Presentation (Online PPT Presentation: E-Science Station)

- Abstracts assigned to the E-Poster Presentation will be uploaded on the E-Science Station, TCTAP website.
- Presenters won't present their abstract on-site, but a PPT file with audio will be posted online.
- Please note that if the E-Poster Presentation file is not submitted by the specified deadline, it will not be uploaded to the website.

* Benefits for All Presenters:

- An advantage in applying for the Best Young Scientist Award.
- **All selected abstracts will be published in an online supplement of the Journal of the American College of Cardiology (JACC).**
- Free attendance to TCTAP 2026.

9. Withdrawal

- Before December 1, 2025, you may log in and withdraw your submission.
- After December 1, 2025, please email submission@summitmd.com with your submission number and title to request a withdrawal.
- **A withdrawal request must be made by March 9, 2026.**

10. No-Show policy

When you cannot attend the session to present your abstract, please notify the secretariat in advance via email at submission@summitmd.com. If the presenter fails to show up or sends a replacement without any notification, it may affect the acceptance of the Call for Science in future conferences.

11. Copyright Information

When abstracts are submitted, we assume that the authors grant copyright to the Congress Organization for publication on the websites www.summit-tctap.com and www.summitmd.com. By submitting an abstract for the conference, the presenter verifies that the abstract's content and its conclusion should not have been published in any other meeting before our meeting.

12. Assistance

If you need help with your submission, please contact us at +82 2 3010 4799 or email submission@summitmd.com.
